Writing allows us to understand, process, think, hence in all learning processes, whether at school, university or at work, the blackboard has been, is and will be an indispensable tool. Of course, we leave it up to you the type of drawing board that you like the most or best suits your needs. The act of handwriting stimulates areas of the brain that are also activated when we reflect. Writing by hand is a physical act, as our blackboards are physical, and just as writing says a lot about the character of the person whose writing, blackboards say a lot about the character of their companies.

Escribir nos permite comprender, procesar, pensar, de ahí que en todos los procesos de aprendizaje, ya sea en la escuela, la universidad o en la empresa, la pizarra ha sido, es y será una herramienta indispensable. Eso sí, dejamos a tu elección el tipo de pizarra que más te guste o mejor se adapte a tu espacio. El acto de escribir a mano estimula áreas del cerebro que también se activan cuando reflexionamos. Escribir a mano es un acto físico, como físicas son nuestras pizarras y al igual que la escritura dice mucho del carácter de la persona que escribe, las pizarras dicen mucho del carácter de sus empresas.

L'écriture permet de comprendre, traiter, penser, dans tous les processus d'apprentissage, que ce soit à l'école, à l'université ou en entreprise, le tableau a été, et sera toujours un outil indispensable. Bien entendu, nous vous laissons le choix du type de tableaux que vous aimez le plus ou qui convient le mieux à votre espace. L'acte d'écrire à la main stimule des zones du cerveau qui s'activent lorsque nous réfléchissons. Écrire à la main est un acte physique, aussi physique que sont nos tableaux, et tout comme l'écriture en dit long sur le caractère de la personne qui écrit, les tableaux en disent long sur le caractère de leur entreprise.

Every year we generate thousands of tons of waste that we are unable to recycle. At Planning Siplamo we do our bit to save the planet, recycling thousands of PET bottles and containers to turn them into a long-life product aimed at training and education. Once again we go ahead by presenting our white boards made with R-pet (recycled Pet) profile and corner pieces.

Generamos cada año miles de toneladas de residuos que somos incapaces de reciclar. Desde Planning Siplamo ponemos nuestro granito de arena para salvar el planeta, reciclando miles de botellas y envases de PET para convertirlos en un producto de larga vida útil y dirigido a la formación y la educación. Una vez más nos adelantamos presentando nuestras pizarras fabricadas con perfil y cantoneras R-pet (Pet reciclado).

Chaque année, nous générons des milliers de tonnes de déchets que nous ne pouvons pas recycler. Chez Planning Siplamo, nous essayons aussi de contribuer à sauver la planète, en recyclant des milliers de bouteilles et contenants en PET pour en faire un produit durable destiné à la formation et à l'éducation. Encore une fois, nous allons de l'avant en présentant nos tableaux fabriqués avec des profilés et des coins R-pet (Pet recyclé).

Rail Plan

Rail Plan is a white lacquered aluminum profile, fixed to the wall, which allows blackboards and boards to be hung on its two rails, allowing easy movement longitudinally to achieve a multipurpose space for presentations and meetings in board rooms, classrooms or the office. It also incorporates a lower rail to hold posters or plans without damaging them.

Rail Plan es un perfil de aluminio lacado blanco, fijado a la pared, el cual permite colgar en sus dos carriles pizarras y tableros, pudiendo desplazarlos longitudinalmente para conseguir un espacio polivalente en las presentaciones y reuniones en una sala, aula u oficina. Además incorpora un carril inferior para sujetar pósters o planos sin dañarlos.

Having your notes, photos, drawings or your favorite texts on view makes the drawing board just as important. That visual reminder, that pending task, that moment captured by a camera in the form of a photo, or that drawing of your child who makes you feel special deserves a good place, and at work or in school, a report, a notification, academic notes, or the poster of an event need a place in a visual area for all eyes to see. With or without glazing and of course in your favorite colour or wherever your team of interior designers decides is best in the place where it's to be located.

Tener a la vista tus notas, fotos, dibujos o tus textos preferidos hace que su soporte sea cuanto menos, igual de importante. Ese recordatorio visual, esa tarea pendiente, aquel instante captado por una cámara en forma de foto, o ese dibujo de tu hijo que te hace sentir especial, merece un buen espacio, y en la empresa o en la escuela, un informe, una notificación, unas notas académicas, o el póster de algún evento necesitan de su espacio en una zona visual al abasto de todas las miradas. Con o sin acristalar y por supuesto en tu color preferido o en el que tu equipo de interioristas decida cual queda mejor en el espacio donde se vaya a ubicar.

"Avoir vos notes, photos, dessins ou vos textes préférés à la vue rend leur support d'autant plus important. Ce rappel visuel, cette tâche en attente, ce moment capturé par un appareil photo, ou ce dessin de votre enfant qui vous fait sentir spécial mérite un bon espace, et dans l'entreprise ou à l'école. Un rapport, une notification, des notes académiques ou l'affiche d'un événement ont aussi besoin d'une place dans un espace visuel pour être vu par tout le monde. Avec ou sans vitrage et bien sûr de la couleur de votre choix ou de celle de votre équipe d'architectes d'intérieur, vous pourrez l'adapter parfaitement à votre espace."
